

Your Neighbor's Yard Release Form

Las Virgenes Municipal Water District (LVMWD) wants to share photos of your "California-Friendly" yard on our website and other publications. Our goal is to showcase the beauty of your native plant selections and landscape designs, as well as share any advice you have to offer others looking to upgrade their landscapes. In order to participate, you must be a LVMWD customer.

If you'd like us to feature your yard, follow these easy steps:

1. Complete the attached questionnaire.
2. Email your answers to the questionnaire as well as high-resolution photos of your yard to DeborahPeters@lvmwd.com. If possible, please include at least one photo of yourself and a "before" photo of what your yard looked like prior to turf replacement.

Note: By submitting your photo(s), you are guaranteeing that the photograph is an original work taken by the submitting party and you agree to permanently release the rights of the image(s) to LVMWD for publication without compensation. Credit for photos will be published at the discretion of LVMWD.

3. If you do not have access to a high-resolution camera, contact Deborah Peters at (818) 251-2125, and she will schedule a time for an LVMWD representative to visit your property and take photos of your yard.

By signing this form, you are granting LVMWD permission to share the images and responses you provided on the attached questionnaire on LVMWD.com and other publications, including but not limited to the LVMWD customer newsletter, Facebook and Twitter. Photos and responses may be shared with customer's first name and last initial and residing community. No other account information will be shared.

First Name (please print): _____ Last Name: _____

City: _____ Phone (optional): _____

Signature: _____ Date: _____

Your Neighbor's Yard Questionnaire

Did you participate in LVMWD's "Mow No Mow" rebate program?

Approx. how many square feet of turf did you replace?

What materials and plants did you use?

Explain your reason for upgrading your lawn to a CA-friendly landscape:

Have you seen a significant reduction in your water bill? If so, how much? (approximate percentage is fine)

Have you received any comments from friends and neighbors about your new yard? If so, what sort of comments?

What advice would you give to others thinking about upgrading their landscape?

How happy are you with your new yard?
